FASHION'S LATEST MANDATE APPEARS IN Costume Suits for Misses and Women —OF THE ENTIRELY NEW HALSEL CREPE—

at 39.50

Halsel Crepe is a delightful worsted fabric, light in weight and crepe-y of weave, and assists Fashion in her latest whim by developing three charming costume suits of dress and cape. The frocks in every case are decidedly individual, with pretty embroidery, contrasting color inserts and becoming lines. The capes are just the jaunty length that shows plenty of the frock. Navy and henna, navy and tan, solid tan, brown and tan. Sizes 16, 18 and 20.

Women's Handsome Costume Suits, 69.50

Developed in Twill Cord, the frock a combination of cloth and silk, beautifully embroidered, and long waisted enough to be abreast of the Paris mode. The box coat is lined with matching crepe, is of excellent length, and has wide sleeves that show glimpses of the colored lining. In navy and beige.

Afternoon and Dinner Frocks for Women

—of canton crepe and georgette crepe—

at 39.50

The long slender lines that Paris demands are evident in the two new models pictured. This time the panel is charmingly varied by being finely pleated and attached to the blouse with the loveliest bead motifs. This frock comes in navy, black, cocoa and brown.

Another model of fine georgette over a contrasting colored silk slip takes sparkling beading in an all-over design that imbues it with life and distinction. Fourth Floor

Misses' Delightful Crepe Frocks Specially Priced at 29.50

In their very new touches lies their elusive charm. They are fashioned of georgette crepe, Canton crepe and crepe de Chine, and are mostly concerned with pleats. One model of georgette has four panels as well as the sleeves entirely of pleating, and a moire ribbon sash belt.

Another of georgette crepe has the new pleated silhouette featuring the new Paris vogue for studding the frock with metal. Both pictured.

Other frocks in this charming collection reveal their individuality in exquisite beading or self-trimmings. In all the new Spring shades, as well as navy and black. Sizes 14 to 20

Our first future Easter promenade has discovered a navy suit with the entire jacket striped with the new Paris pin-tucks. There's a fringed black satin sash and the jacket lining is beige canton. You will note the tucked cuffs are almost as broad as the collar is short and round. 75.00

A Piece of Easter Strategy

Sometimes it is not a suit, but only a new vest that one buys for Easter. To such order of coming promenaders we recommend the new imported French vests. Made of cotton Poirer twill, with most unusual stitched embroidery design. White with black stitching, gray with bois, or blue and mustard. 6.85

A Purse in the Hand

Thank you, Paris, for reviving the smartness of our charming old friend, the Natsuki purse of Japanese brocade. All the fashionable women of Paris now carry Natsuki bags. But as the ivory knob handles are antiques they are difficult to get in America. The bag department of Saks & Company, however, has them for Easter. 15.00

Important— Next to Rabbits

Next to rabbits quite the most necessary item for Easter promenades is the proper pair of Easter gloves. We recommend, particularly, kid gauntlet gloves with black and white stitching and smart button tabs of white leather. 4.95
